## CITIZENS FURIOUS AT SONS OF HAM.

Railroad Officials Petitioned to Discharge Colored Section Men—Formerly to Be Hanged With Decorum For His Beastly Crime.

Limon, Colo., Nov. 16.—Notices warn negroes of bad character to leave Lincoln and Elbert counties and declare that if they do not go they will be escorted across the border. Officials of the Union Pacific and the Rock Island have also been petitioned to remove from these counties all the imported colored section men. This action is taken in pursuance of resolutions adopted at the mass meeting of citizens at which an organization was effected for the purpose of lynching John Porter, the colored boy, who has confessed that he murdered Louise Frost. It was unanimously agreed by the meeting that Porter shall be hanged with all the decorum of a legal execution whenever he is brought to this country and no brutality will be tolerated. It is also announced that Porter will not be brought back for 10 days.

Denver, Colo., Nov. 16.—John Porter the murderer was taken from the jail by Sheriff Freeman of Lincoln county, and driven rapidly out of the city in a closed carriage. It is understood the party intended to board the afternoon Union Pacific train at some point outside the city. It is feared that when Limon is reached a mob will seize and hang the prisoner.

Removing Dewey Arch.  
New York, Nov. 16.—A dozen men with pickaxes, crowbars and shovels appeared at Madison Square at midnight to begin the work of removing the Dewey arch. In a few minutes the laborers pulled away the heavy coating of stucco around the base of the pedestal situated on the park side near Twenty-fifth street. A crowd collected around the men. Relic hunters by the score appeared and each sought to obtain some section of the sculptured figure of "Victory," which ornamented the front of all the columns. The skeleton of the column was laid bare in a few minutes and the woodwork was torn apart and laid aside.

Did Chinese Discover America?  
Monterey, Mex., Nov. 16.—Great interest has been aroused among scientific men by the report that American officers have unearthed ancient records in Peking showing that the Chinese discovered America 1,500 years ago and erected temples in Mexico. The temples alluded to are in the state of Sonora on the Pacific coast. The ruin of a temple was discovered near Ures two years ago and a large stone tablet found in the ruins was covered with carved Chinese characters.

New York, Nov. 16.—The North German Lloyd steamer *Trave*, just arrived, had on board 34 of the Chicago Irish ambulance corps who fought in the Transvaal. They were met at Quarantine by a committee to arrange for their landing reception.

The returned Irishmen are all in good health and spirit and greeted the delegation cordially, saying they were glad to get back. They were all clad comfortably in winter clothing, and looked as if they did not suffer for means. Their soft-brimmed felt hats were decorated with buttons and other insignia of the Boers.

On their arrival in this city they were escorted to the Vanderbilt hotel, where they were entertained. The original number of the corps when it went to South Africa was 58. One was killed, one wounded, one taken prisoner, some are in the hospital and some remained in South Africa. The corps left South Africa for home about a month and a half ago, going first to Trieste, and from there to Paris. John Escholman, who went out under General Hassell as a scout, said the men had all given a good account of themselves.

## MISSING THE MONARCH.

Same Woman Hurled a Hatchet at Emperor William.

Breslau, Nov. 16.—Emperor William was the object of an attempted outrage Friday which failed. As he was driving in an open carriage to the Curassier barracks, accompanied by the hereditary Prince of Saxe-Meiningen, a woman in the crowd hurled a hand chopper at the carriage. The rapidity with which the vehicle was passing saved its occupants. The axe, or hatchet, fell just behind the carriage. The woman was immediately arrested. She is believed to be insane.

The woman's name is Selma Schnapke. She occupied a place in the front rank of the spectators, on the side furthest from the emperor. A crowd of people who witnessed the outrage threw themselves on his majesty's assailant but prompt intervention of the police saved the woman from injury.

## WEYLER'S PHILIPPIC.

Says He Is No Greater Butcher Than Lord Roberts.

## JUSTIFIES HIS COURSE IN CUBA.

Could Have Driven the Americans Into the Sea, If—All He Did Was To Obey Orders and Is Not Responsible For Defeat.

New York, Nov. 16.—A dispatch from Paris says General Weyler has emerged from his shell and fires some hot shot at Anglo-Saxons in general. An interview given to the Figaro's correspondent. He says: "It has required the events in the Transvaal and the stories of the real cruelties committed upon the Boers by Lord Roberts and the English for European military writers to acknowledge that I never conducted myself in Cuba as the British have done in South Africa. People are now beginning to do me justice. The truth of the matter is that I carried on the war in Cuba with the rigor which war requires. If I had been able to gather together a strong conservative party after the death of Canovas, I should have prevented the loss of Cuba. At the head of the Spanish troops which were then in the Island I should have driven the Americans into the sea. The hasty levies of Americans would never have been able to cope with the Spaniards. I should never have asked for a fleet to be sent to me. My resources in Cuba were quite ample. But it is too late now. What's the good of crying over split milk? Politics lost us our colonies. No blame whatever can attach to the army. All that it did was to obey orders. It was in no wise responsible for our disasters. Today, if it be necessary for the good of Spain for me to give my assistance and my personal support to a political party I will certainly do so. If the Liberal party needs me to reconstruct and undertake a campaign in conformity with its traditions of liberty and progress, I will give my help to the Liberal party but I will consent to be a politician for six or eight months only. Immediately afterward I will once again become a soldier—that and nothing more. It is my opinion that if Marshal Martinez Campos had remained purely and simply a soldier his fame would have been all the greater."

## Exonerates Sims.

Washington, Nov. 16.—It is said at the navy department that the effort made in some of the French newspapers to connect Lieutenant Sims, late naval attache at Paris, with disclosures relative to the French gun are based upon misapprehension of the facts. The officials here ridicule the story that General Porter, ambassador to Paris, is in any way involved in this scandal. In fact they contend that nobody connected with the embassy has been snubbed and assert that the French government has not made even the smallest inquiry which would indicate a lack of confidence.

## Liberated by Lynchers.

Charlotte, N. C., Nov. 16.—A mob which intended to lynch a negro at Albemarle only succeeded in liberating the prisoner. On being refused entrance the mob battered down a section of the jail wall, smashed the negro's cell door and dragged him out, pushing him through the hole in the wall. ## PEACE ARBITERS.

Their Appointment Will Not Require Senatorial Confirmation.

Washington, Nov. 16.—Attorney General Griggs has decided that the members of the international arbitration commission selected by the president under the terms of the treaty agreed upon by The Hague peace conference are not subject to confirmation by the senate of the United States. The president already has selected former President Harrison and former Senator George Gray of Delaware as members of this commission and they have accepted. Former President Cleveland was invited to become a member but declined. Two other members are still to be selected. After the appointments were made a question arose as to whether the president would have to send the nominations to the senate for ratification and Attorney General Griggs was called upon for an opinion. His opinion is to the effect that the members of the commission are not officers of the United States within the meaning of the statute. They are not required to take the oath of allegiance to the United States and are in fact, simply members of a commission selected by the president of the United States, whose services may be availed of by other countries in the settlement of controversies to which the United States is not a party. Their remuneration in case their services are required, is to be provided for by the countries for which they act as arbitrators.

## Election to Hawaii.

Honolulu, Nov. 3, via San Francisco, Nov. 16.—Robert W. Wilcox, the independent Royalist candidate was elected Hawaiian delegate to congress by a small majority over Samuel Parker, the Republican candidate. His strong vote among the natives in the outside districts carried the day against the whites and the native voters of the cities. The independent native party carried the house of representatives by a large majority. It will have 14 members of the house with nine Republicans and six Independents and Democrats. The senate will be seven Republicans, eight Independents and one Democrat. With the Independents in control a lively session is expected, as they are against the ruling regime. It is likely congress will be asked to establish some limitations upon the voting privilege. Many of the whites are at a property qualification for voters.

## JUDGE TAFT'S OPINION

What He Thinks About the Future of the Philippines.

## DEPENDED ON MCKINLEY'S ELECTION.

No Doubt Now About McKinley's Election—Prediction as to the Philippines Remains to Be Verified—Work of Commission.

Cincinnati, Nov. 16.—A manufacturer of this city who has been in correspondence on the subject of tariffs in the Philippines with the Hon. William H. Taft of the Philippine commission, has received a letter from Judge Taft, dated Manila, Sept. 21, in which he says: "I am glad you took the trouble to send a paper on the tariff, which we are about to make up. We have just passed a civil service law, which is on the whole, I think, the strictest law that has been passed under American auspices. I have no doubt that we shall be able to work out successfully the problem before us, if McKinley is elected. I do not mean to say that there are not a great many difficulties ahead, even with the policy of the government toward these islands settled, but I do mean to say that there are none of them insuperable. We certainly need new banking facilities here and we need better harbor facilities. We shall appropriate \$2,000,000 (Mexican) this week for the completion of the harbor, a work much of which was done by the Spaniards, but which remains useless without its completion. When the harbor facilities are better doubtless direct American lines will be established to Manila. I feel confident that Manila will become one of the great ports of the Orient. Only the surface of the possible prosperity and business of these islands has been scratched. When you speak of leading Chinamen into these islands you touch a question that has a great many dangers connected with it and I could not now express an opinion on the subject."

## Located the Leak.

Peru, Ind., Nov. 16.—A natural gas explosion in the wholesale grocery house of McCaffery & Co. resulted in the probable fatal injury of Aaron Diesch, a clerk who was looking for a leak with a lighted match. #### To the Democrats of Mason County.

Pursuant to the provisions of the new party law adopted at the State convention June 14, 1900, the Democrats of Mason County are asked to assemble in mass convention at the usual voting place in their respective precincts on Monday, November 19, 1900, at 1 o'clock p. m. and select a committee to represent the precinct in the Democratic organization for a period of four years.

Further, the committee selected by said mass conventions are requested to meet in the parlors of the Central Hotel on Monday, November 20th, at 11 o'clock a. m. and select a Chairman and Secretary of said committee, who may or may not be members of the committee.

Respectfully,  
T. D. SLATTERY, Chairman.

The Vanceburg Sun let out a terrible cry this week about alleged frauds by election commissioners in this district, but it finally had to confess that "no wrong was committed against the Republican voters in Lewis County, and thanks are due to the gentlemen composing the board for their evident disposition to accord the fairest of judgment to all parties."

The Public Ledger some days ago stated "in a preacherly way" that it believed Mr. Pugh had received a majority of the votes in this Congressional district, but it has finally given up, and in its issue Friday concedes Mr. Kehoe's election, paying the following tribute:

The official returns are a trifle slow in coming, but enough is known to warrant one in congratulating Mr. Kehoe on his election to Congress. Surely he will have no warmer supporter than The Ledger in his efforts to advance the material interests of his district, and especially of dear old Maysville. A tireless worker, a man of character, he will reflect credit on his constituency. His only crime is his youth; but he will get over that.

#### PUBLIC SPIRIT.

The committee appointed by the Board of Trade to solicit subscriptions to raise the sum of \$700 to aid in starting a new industry in this city was out Friday afternoon and the members are much pleased with the reception given them by our enterprising citizens. Very few persons refused, some are considering and others have not yet been seen. The committee feel that each one shu'd consider it a privilege to be able to help this good cause along and thus give employment to many persons who desire to make an honest living. Let all join heartily in the matter and we cannot fail.

The industry will employ about fifty hands with a pay roll of about \$300 per week to begin with. The business will be enlarged within six months to give work to twice this number.

You give alms when you find worthy objects. You do better than giving alms when you help people to get employment so that they may help themselves. Do not wait for the committee to call on you. Hunt the committee. Any member of the Board of Trade will take your subscription.

#### CONGRESSMAN-ELECT KEHOE.

The official count of the returns in this Congressional district was not completed in all the counties until Wednesday, Carter being the last to report. The delay there was caused by irregularities in three precincts, the election officers in one precinct having sealed up the returns, ballots and stubs in the ballot box, and the commissioners were compelled to adjourn until Wednesday when the count was finally completed. It gives Mr. Pugh 716 majority in that county. The result in the district is as follows, the figures showing the majorities in the various counties:

	Kehoe.	Pugh.
Mason.....	566	
Fleming.....	78	
Robertson.....	227	
Nicholas.....	600	
Harrison.....	950	
Bracken.....	552	
Bath.....	175	
Rowan.....	122	
Carter.....	716	
Lewis.....	988	
Greenup.....	551	
Boyd.....	540	
Lawrence.....	96	
Totals.....	3148	3013

Kehoe's majority, 135. The Republicans have persistently reported that the vote of some of the precincts in Carter, Lawrence, Greenup and Boyd was thrown out, but our information is that not a single precinct was thrown out. There was some trouble over one precinct in Greenup which was explained in Friday's issue, and which was satisfactorily settled.

On this point of throwing out precincts on account of irregularities, Mr. Kehoe

discountenanced it as soon as Republican papers reported such action was contemplated. He announced that he did not want a single vote given him or a single vote taken from his opponent on a technicality. All he asked was a fair count.

While Mr. Kehoe's majority is not as large as at first reported still it is a very handsome one in view of the fact that the Republicans had carried the district three times in succession previous to this election.

Mr. Kehoe conducted his campaign in a manly manner throughout, refraining entirely from personalities, and the splendid impression he made at his various speaking appointments throughout the district won him votes, and went far towards redeeming the old Ninth from Republican domination.

### THE LATE ELECTION.

Statement Made That the Republicans Used \$4,800 in Boyd County—The Election Two Years Ago.

[Enquirer.]

Hon. Mordecai Williams, of Normall, Boyd County, Kentucky, was a delegate to the River Improvement Association.

"Our Democratic candidate for Congress in the Ninth district, Hon. James N. Kehoe, of Maysville, is undoubtedly elected by between 400 and 500 majority, and by 126, conceding all the claims of his opponent, Pugh," said Mr. Williams, "but I presume there will be a contest over the seat, as those things are popular these days, as a contestant draws pay.

You may have an idea of the amount of money the Republicans spent in our district from the fact that they distributed \$4,800 in our county (Boyd), \$2,600 in the adjoining county of Lawrence, and there are thirteen counties in the district. It is a great solace to us that though defeated nationally we saved our State to law, order and good government. If one or the other had to go down I would rather it had been Bryan than Beckham, and multitudes of Kentuckians feel that way."

Mr. Williams made the race in his district two years ago against Judge Pugh, who was given the certificate from a majority of nine, as it appeared on the face of the returns. It turned out afterward that through a clerical error Mr. Williams was entitled to twenty-eight more votes in his county than were counted for him, which any one may read from the correct returns on record in his county. The Democratic State Commissioners took the ground that they held to later in the gubernatorial race, that their duties were merely ministerial, and Pugh got the certificate. Mr. Williams did not contest.

Laughter and Tears.

"A Poor Relation" is full of humorous lines and situations that ingeniously and irresistably compel alternate laughter and tears. The scene of the breakfast in act first, the pathetic equal of act second, with its silver linings of sad drollery, (for even such a paradox is the incident of the barrel and the sewing on of poor little Rip's suspender buckle) and the doings and sayings of Noah Vale, his little songs to make the children forget that they are hungry, Scallops and the children, all make up an exceptionally appealing and effective ensemble. At the opera house next Monday night. Tickets at Nelson's.

### RIVER NEWS.

Fifty Tows of Coal to Leave Pittsburgh as Soon as Navigation Opens—Working for the Improvement of the Ohio.

Capt. Tom Hail, who chartered the J. Fisher to take a tow of empties up the river, received a telegram stating that the boat had been forced to lay up at Brush creek because of a broken shaft.

When navigation opens between Pittsburgh and lower-river ports the greatest procession of steamboats in the history of Pittsburgh will start South with tons of coal. The combine has completed arrangements to get out the 30,000,000 bushels of coal, and fifty boats will leave as close together as possible when the streams reach a stage upon which coal can be shipped to Southern points. There is more coal loaded now than ever before and it will require every boat to make at least three trips before the product is all towed South. Pool boats will help out as far as Cincinnati, when the tows will be doubled and trebled and the big boats will go through to Louisville and New Orleans.

Maysville was represented by Messrs. J. C. Adamson, Verner Dryden, Thomas A. Keith, E. P. Browning, L. H. Phister, R. A. Cochran and C. M. Phister at the annual convention of the Ohio River Improvement Association in Cincinnati this week. Mr. Browning was appointed on the Committee on Rules and Mr. Keith on the Committee on Credentials. Captain C. M. Phister is a member of the Committee on Nominations and the Committee on Ways and Means.

The convention adopted resolutions recommending that the next dam to be built in the Ohio be built below Cincinnati, the next below Point Pleasant and Gallipolis, (the mouth of the Great Kanawha river) and the next three between Parkersburg and Portsmouth, after which the rest of the dams between Pittsburgh and Big Miami should follow in the order which may at that time appear the most feasible by the engineer in charge.

## The Difference in Cost

Of thoroughly good fashionable and serviceable Clothes and Shoes as bear our label and inferior goods is not large enough to warrant you taking the risk attached to buying ordinary goods. The kind of clothes we sell are tailored by the same class of journeymen tailors as are employed by high-priced merchant tailors. Not a yard of fabric is used in these garments that has not been thoroughly tested for its textile strength and color fastness; therefore we thoroughly endorse and guarantee all goods we sell, and say, "money refunded" without argument if for any reason you are dissatisfied with your purchase.

Our experience as well as yours has proven that the kind of merchandise we sell is as near perfection as can be, and though they cost a little more than the other kinds they are really the cheapest kind in the end. Our leaders in clothes are Stein Bloch Co., Adler Bros. & Co., the best brands in the country.

In Shirts, the Manhattan; Hanan Shoes and Stetson Hats. All of these are the highest class of merchandise in their respective lines.

KENTUCKY SHOWS UP WELL.

Mr. Smith of the Census Department Says  
Citizens of State Should Be Proud  
of Increase.

(Courier-Journal.)

Mr. Stephen D. Smith, who was Mr. C. K. Caron's chief assistant in compiling the twentieth census of the Fifth Congressional district, says Kentucky's increase in population averages well with any other State in the Union.

"I have naturally taken a deep interest in the 1900 census," said he, "and I have watched the census from other cities and States. Kentucky shows a gain of 15.5 per cent., and that is quite good. In fact, it ranks right along with the increase of other States and better than many."

"The increase in the Fifth district was over 27 per cent., the district doing better than any of the other eleven. Louisville people should be proud of this, but, at the same time, the increase was due to the fact that Louisville is the metropolis and business center of the State. At the same time the census reports of all cities do not always show an increase; or, at any rate, do not always show the splendid increase which Louisville has made in the last ten years. Louisville so far eclipsed Cincinnati and other cities that I could name, and Kentucky did so much better than many of her sister States that I think the people have a right to be proud of the record which our State has made."

ANSWER IT HONESTLY.

Are the Statements of Maysville Citizens  
Not More Reliable Than Those  
of Utter Strangers?

This is a vital question. It is fraught with interest to Maysville. It permits of only one answer. It cannot be evaded or ignored. A Maysville citizen speaks here, speaks for the welfare of Maysville. A citizen's statement is reliable. An utter stranger's doubtful. Home proof is the best proof.

Mr. Robert Wiese, of Forest ave., says: "Doan's Kidney Pills are, from the evidence I have, a sure cure for backache. I say this, not only from my own experience, but also from that of several others who have received the greatest benefit from the treatment. I suffered from pain in my back, a disordered condition of the kidney secretions and symptoms of an inflamed condition of the bladder. Procuring Doan's Kidney Pills from J. Jas. Wood & Son's drug store, corner of West Second and Market streets, they gave me quick and effective relief."

Shall Die a Democrat.

(Enquirer.)

Mr. S. N. Meyer, a retired merchant of Maysville, Ky., who clerked in a Cincinnati store in 1846, and was a member of the old Deluge Fire Company, is at the Grand with his wife, on their way to make Dayton, Ohio, their home.

I came from Germany to this country and out to Cincinnati," remarked Mr. Meyer, "when I was about 21 years of age. The Democratic party was then the only party in this country that held out a hand of welcome to foreigners, and I shall die a Democrat. My father, who lived in one of the French provinces, was one of the last men drafted by Napoleon in 1811. My mother was a German woman."

THANKSGIVING.

Governor Beckham's Proclamation Setting Apart Thursday, Nov. 29th, as the Day.

COMMONWEALTH OF KENTUCKY, EXECUTIVE DEPARTMENT.

In accordance with custom, and in response to the grateful emotions of our people towards Almighty God, I appoint Thursday, Nov. 29, as a day of thanksgiving and prayer throughout the Commonwealth. Let us, on that day, give reverent thanks unto Him for the many blessings bestowed upon our country, and lift up our prayers that in the future, as in the past, He may guide the nation through the storms and perils that may beset into the haven of peace and happiness.

Upon that day let all our citizens lay aside their business cares and duties, to contemplate the growth and progress of their country and to express gratitude to Him from whom all the benefits have come. We should not forget the poor and suffering among us, and wherever it is possible to extend the hand of charity to those deserving it, the generous impulses of our people will lead them to do so, to relieve distress, to feed the hungry, to clothe the naked during the severities of the coming winter.

In testimony whereof I have hereunto set my hand and caused the great seal of the Commonwealth to be hereunto affixed.

Done at Frankfort this 16th day of November, A. D. 1900, in the 100th year of the Commonwealth. By the Governor, J. C. W. BUCKHAM, C. H. Hill, Secretary of State.

Some agents have been instructed not to advance any money on tobacco where Paris green is used. In Owen county Paris green has poisonod several persons, and in some cases death has resulted from its use. We heard of one man who boasted of his having sprinkled 25 pounds of poison on his tobacco after he had placed it in the barn because of the great quantity of worms that still remained on his tobacco.
